

# BUILT TO LAST

YOUR GLOBAL PROCESSING EQUIPMENT  
SUPPLIER FOR THE SOLIDS PROCESSING  
INDUSTRY

# Processing Equipment

We are dedicated to delivering an integrated line of processing equipment.

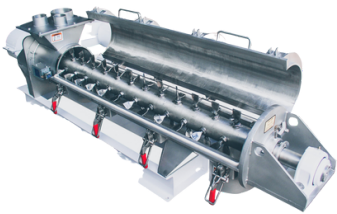

## Batch Mixers

Batch mixing is the most commonly used mixing technology, providing precise control of mix quality, flexibility of production, and lower installation and operation costs.

## Bulk Storage

Scott Square Modular steel bins are engineered to meet present-day needs for greater efficiency and economy in the construction and operation of bulk storage systems.

## Mixers & Blenders

Continuous mixers are ideal for high-capacity applications where large quantities of a single product are mixed. All of our blenders, mixers, and agitators are custom-built to meet requirements.

## Dryers

Our industrial dryers deliver exceptional product uniformity and maintainability, efficiently and cost-effectively meeting each application requirement.

## Size Reduction

Utilizing controlled size reduction for uniform particle sizes offers better process control of color, taste, flowability, density, dispersion, and chemical reactions.

## Products

Single Shaft Mixer  
Twin Shaft Mixer  
Surge Hopper  
Scale Hopper  
Agitators  
Plow Mixer  
Rotary Drum  
Mixer  
Pugmill  
Tender blend  
High Speed  
Blender

AST Dryer  
Indirect Dryer  
Square Storage  
Bins  
Sanitary Bins  
Crusher  
Shredder  
ACM Mill  
Turbo Separator  
Cake Feeder  
Mixer Feeder  
Cooler

## Services

Testing facilities  
On-Site Repair  
Equipment  
Rental Program  
Inspections  
Consultation

# The Power of Innovation

We take great pride in  
delivering a quality product  
day in and day out for over 50  
years.

As a leader in the industry,  
Scott Equipment has always  
been dedicated to innovation  
and unique solutions.
